### **PIS family pulls together to support charities!**

Professional Investment Services (PIS) and its global network of colleagues annually donate thousands of dollars to charities and social enterprises worldwide.

Philanthropy is a key component of the Group's underlying philosophy. We promote and manage a large number of events to help raise money for global charities including the Cancer Council, the Salvation Army and the Red Cross.

A great example; PIS New Zealand recently held a client golf day in conjunction with the PIS NZ 2008 Accounting practice of the year, Kelly & Bryant.

The event was a success bringing together more than 80 clients and staff who raised funds for the victims of the Victorian bushfires.

Another fundraising venture was held as part of the Professional Investment Advisory Services (PIAS) and BoJin conference in February 2009 in Hainan Island, China. The staff and delegates also generously contributed towards the Victorian Bush Fire Appeal.

PIS would like to pay special thanks to all members of their global network for efforts in raising money for Australians in their time of need.

PIS hosts 10 conferences annually and every function is an opportunity to raise funds for different charities worldwide.

The conferences are an ideal environment for delegates to contribute to a collective and significant sum that will in turn support great causes.
